### The New Books

#### Hiram Blair.

Drew Tufts has written in "Hir-  
am Blair" a thoroughly entertain-  
ing story, racy of the soil, with love,  
politics, humor, philosophy and  
quaintly expressed common sense  
mixed in attractive proportions.  
"There ain't no full-blooded man liv-  
in", Miss Bassett," says Hiram Blair,  
"that kin keep all ten of the com-  
mandments all the time." And again:  
"Ef I had my way a man'd have to  
court a gal fifteen or twenty years  
before he could marry her. Then ev-  
erybody'd be happy that long any-  
way." (A. C. McClurg & Co., Chicago.  
Cloth Illustrated. \$1.35 net.)

### OFFERS FUND FOR FARMERS

College of Agriculture Considering  
Plan of Sears-Roebuck and Co.

The College of Agriculture of the  
University of Missouri has been of-  
fered \$144,000 of the one million  
dollar fund of the Sears-Roebuck &  
Co., for the advancement of agricul-  
ture. The fund is to be used to em-  
ploy expert farm demonstrators for  
each county. The only condition on  
the offer is that the College of Agri-  
culture here shall appoint the men  
for the work.

The work of these special demon-  
strators would be to educate the  
farmers of each county to get better  
results from their farms. They  
would be expert advisors for the farm-  
ers.

The College of Agriculture here  
has not yet accepted the offer. The  
University of Kansas has the matter  
under advisement.  
Plans have already been started by  
the College of Agriculture for the ap-  
pointment of advisors for each coun-  
ty whereby the College will pay  
twenty-five percent of the salary of  
the demonstrators and the farmers  
of the county pay the rest of the sal-  
ary. Several counties of the state  
have applied under this arrangement.

### THE WEEK'S NEWS REVIEW.

J. Pierpont Morgan favors chang-  
ing the name of the White Star Line  
on account of the Titanic disaster.  
He suggests calling it the American  
line.

Sheriff Milhaub of Wichita, Kan.,  
has been ordered by the court to open  
18,000 bottles of confiscated beer,  
put the contents into the gutter and  
return the bottles to the brewery  
owning them.

Congressman E. H. Hubbard of  
Sioux City, Io., died of heart disease  
while listening to election returns  
which showed that he had been re-  
nominated. He was being congrat-  
ulated when he fell to the floor un-  
conscious.

Senator W. S. Nixon of Nevada,  
died in Washington a few days after  
an operation for catarrh. Spinal  
meningitis was the immediate cause  
of death. He was a Christian Sci-  
entist. He was a native of California  
and amassed several millions in Ne-  
vada mining ventures.

William Ward Brelsford, who was  
recently paroled from the peniten-  
tiary by Gov. Hadley, has been ar-  
rested for a \$4000 theft committed  
while in prison. He was employed  
there as a shipping clerk by a cloth-  
ing manufacturer and he reshipped  
goods to his home in St. Louis by  
manipulating bills of lading.

Mrs. Charles M. Donovan held her  
position as teacher in the St. Louis  
public schools for eight months after  
she was married, using her  
maiden name, Glorine Thompson. An  
anonymous letter to the Board of  
Education caused her to be dis-  
missed under the rule forbidding  
married women to be employed.

Twin daughters were born, joined  
together, to Mrs. John Griggs of  
Holyoke, Mass. The twins are united  
by fleshy ligaments at the hips,  
which physicians believe will ossify.  
The Siamese twins, the only similar  
case on record, were joined at the  
chest. They died in 1874, aged 63.  
The twin babies are healthy, and  
will probably live. Physicians think  
it would be fatal to one or both if  
the connection should be severed.

Two mammoth Corinthian col-  
umns, modeled after the famous pier  
that still stands in Athens, will  
be erected by the citizens of Dayton,  
O., in honor of the Wright brothers.  
Though the occasion of their build-  
ing will be the recent death of Wil-  
bur Wright, it is planned that they  
shall stand as a memorial to the  
achievements in aerial navigation of  
Wilbur Wright, who still lives.

During a speech by Senator Kern  
in opposition to Senator Lorimer and  
contradicted. Kern said Lorimer  
tried to procure Gov. Dineen's elec-  
tion to the Senate so as to get rid of  
him. Lorimer said he took this ac-  
tion for the benefit of the Republican  
party. Kern was congratulated by  
Lorimer on completion of his speech.

Senator John Sharp Williams of  
Mississippi wants the bath rooms re-  
moved from the Senate Office Build-  
ing. He says it costs \$6 to bathe a  
Senator, and the space occupied by  
these rooms is needed for storing  
public documents. Maintaining the  
bath room is an extravagance that  
gives the muckrakers too good an  
opening, he asserts.

Mrs. Mary D. Lowman, the first  
woman Mayor in Kansas, was burned  
to death when her clothing caught  
fire from a stove at her home in  
Osceola first of last week. She was  
mayor of Osceola in 1888. Her hus-  
band is now City Clerk there. She  
was 60 years old.

Angered by a decree of divorce ob-  
tained by his wife, Thomas Ralls of  
Clarence, Mo., went to the home of  
her parents and shot her father,  
Clarence Upton, and his wife. When  
he was about to be captured by pur-  
suing officers, Ralls killed himself.  
Mr. and Mrs. Upton will recover.

That Senator Jas. A. Reed of Mis-  
souri is to place Champ Clark in  
nomination at Baltimore, is the sub-  
stance of a story sent out from Wash-  
ington the past week. Reed is a  
delegate at large. The same special  
also says Senator Stone is slated for  
the chairmanship of the national  
committee, and in that case would  
become manager of the democratic  
campaign.

W. B. Doddridge, 70 years old and  
former vice-president and general  
manager of the Missouri Pacific Rail-  
road in St. Louis, has just married  
Miss Mattie L. Gann, 33, once his pri-  
vate telegraph operator and recently  
in the millinery business at 1660A  
South Jefferson avenue, St. Louis.

Dr. T. Alexander McNichol has  
made a report to the Government on  
the use of alcohol in this country.  
He holds it responsible for a wave of  
degeneracy and says the life of the  
nation is threatened. During the last  
five years, he says, the birth rate  
of the United States has fallen off  
32 1-2 per cent, and in 50 years the  
insane and feeble minded have in-  
creased 950 per cent against a popu-  
lation increase of 320 per cent.
